

Nevada Governor's  
Office of Science,  
Innovation and  
Technology

# STEM Leaders Academy

## About the Program

This professional learning program is designed for school STEM leadership teams consisting of 5-8 administrators and teachers.

Teams learn about the **Nevada STEM Framework** and the **Governor's STEM School Designation**. Team members can earn their National Certificate for STEM Teaching from NISE to build a common foundational understanding of high-quality STEM pedagogy.

Next, OSIT works individually with school teams to backward plan a long-range STEM strategic plan, including a STEM vision, benchmark goals, and action steps. OSIT awards each participating school a \$25,000 grant to launch their strategic plan.

### Nevada STEM Framework

Dig into the attributes describing a high-quality STEM school

### 5-Year STEM Strategic Plan

One-on-one support in planning a trajectory toward your STEM vision

### \$25,000 Grant to Launch

Fund training, planning, and materials to launch your plan
